

Notice to Researchers Ordering Controlled Substances from CDMV with Health Canada Exemption

Animal Care Services has opened an account with CDMV to allow researchers to order controlled drugs listed on their Health Canada Exemption.

For new applications or to amend your existing application to change to the new supplier for a Health Canada Exemption to Use a Controlled Substance for Scientific Purposes, please visit the following website for the application form:

<https://www.canada.ca/en/health-canada/services/health-concerns/controlled-substances-precursor-chemicals/exemptions/application-form-exemption-use-controlled-substance-scientific-purposes.html>

For researchers who need to amend their Health Canada exemption to change to the new supplier, there are three scenarios:

1. You have an approved Health Canada exemption that lists McGill as the supplier but you have not ordered any controlled drugs from McGill under your current Health Canada exemption.
 - a. In this case, remove McGill and add CDMV as the supplier for the drugs. The volumes of drugs to be purchased can remain the same. When submitting the application to Health Canada by email, explain in the body of the email that you are a researcher at the University of British Columbia and are changing suppliers due to McGill's inability to supply the drugs, that you have not yet purchased any drugs from McGill and all the volumes of drugs listed on the original Health Canada exemption are the same.
2. You have an approved Health Canada exemption that lists McGill as the supplier and you have purchased some but not all of your approved volumes of drugs from McGill.
 - a. In this case, remove McGill and add CDMV as the supplier for the drugs. When submitting the application to Health Canada by email, explain in the body of the email that you are a researcher at the University of British Columbia, that you are changing suppliers due to McGill's inability to supply the drugs, the amount of drug you have purchased from McGill, the amount of drug you still have in stock and the amount you were originally approved for.
3. You have an approved Health Canada exemption that lists McGill as the supplier and you have purchased all your supply for the year from McGill but need to add additional quantities of drugs.
 - a. In this case, remove McGill and add CDMV as the supplier for the drugs. When submitting the application to Health Canada by email, explain in the body of the email that you are a researcher at the University of British Columbia, that you are changing suppliers due to McGill's inability to supply the drugs, that you have purchased the total volume approved from McGill and that you are amending the volume required in the application.

Health Canada estimates it will take 3 months to approve amendments.

The volume of the bottles that CDMV carries may be different from what you originally had approved so please check your exemption and amend the volumes if necessary. The volumes available at CDMV are found below.

For section 5 of the application, the Supplier information is as follows:

CDMV
3400 Cartier Street
Saint-Hyacinthe, QC J2S 1L5
Telephone: 800-668-2368
Fax: 800-363-3134
Contact: Hassan Malekeddine
Email: hassan.malekeddine@cdmv.com

Health Canada will send the Principal Investigator as well as CDMV a copy of the approved Health Canada Exemption including all drugs and volumes approved.

To order, complete the CDMV order form (attached at the end of this document):

- The CDMV account number is: **82631**
- Your Establishment name will be the name of the Principal Investigator who must also be the person named on the Health Canada Exemption.
- The owner of the Health Canada Exemption must be the person signing the order form.
- The address on the ordering form must be EXACTLY the same as the address on the Health Canada Exemption.
- Put a number (i.e. 1, 2, etc.) in the white quantity column on the left of the item number on the order form (check marks, liquid paper, or cross-outs are not acceptable).
- If you make a mistake while filling out the order form, please restart the form to avoid any delays.

You may pay by credit card or Purchase Order (PO).

Credit card: If your credit card information has not yet been added to the account or if you need to update your credit card information, please email one of the administrators of the UBC CDMV account:

- Janice Kang (anca.orders@ubc.ca) or
- Dr. Shelly McErlane (shelly.mcerlane@ubc.ca)

Provide the full name and email address of the laboratory personnel who is authorized by the Principal Investigator to place controlled substance orders under the Health Canada Controlled Substance exemption. Once you have been added, you will get an email indicating you may now access the account to add the credit card information.

CDMV can no longer enter your credit card information.

If paying by Purchase Order, the purchase order from your department must contain controlled drugs only.

As any mistake or missing information can lead to a refusal, before sending the order, CDMV strongly suggests you submit the order first by e-mail so they can validate it. CDMV will be also able to let you know if the selected product is available at the time and whether there have been any changes to the order form. Use the following email address:
controlled.substances@cdmv.com

Once the order form is completed, you must mail (or courier) it and the following information to CDMV:

- the original copy of the order form
- a copy of the Health Canada exemption
- a copy of the PO sheet (if paying by PO; this is not required if paying by credit card)
- a copy of a government issued ID with photo and signature (please ensure that the signature on the order form matches the signature on the ID).

You can also submit an order form by e-mail (controlled.substances@cdmv.com) if you have a Adobe Acrobat Pro. The seal from Adobe Acrobat Pro must be visible.

A shipping charge of \$25 will be applied per order under \$250.

Prices and available volumes of common controlled substances from CDMV (these may change without notice)

Drug	Brand Name	Order code	Concentration	Volume/bottle	Price
Ketamine					
	Narketan Injectable	118577	100 mg/ml	10 ml	\$17.74
	Narketan Injectable	118578	100 mg/ml	50 ml	\$57.89
Sodium Pentobarbital					
	Euthanyl Regular	381	240 mg/ml	250 ml	\$66.87
	Euthanyl Forte <small>(not recommended for small animals)</small>	382	540 mg/ml	250 ml	\$132.47
Buprenorphine					
	Vetergesic Injectable	124918	0.3 mg/ml	10 ml multidose	\$98.89

Midazolam					
	Midazolam Injectable	111645	1 mg/ml	2 ml	\$18.42
	Midazolam injectable	6051	1 mg/ml	10 ml	\$2.92
	Midazolam injectable	112173	5 mg/ml	2 ml	\$55.36
	Midazolam injectable	115198	5 mg/ml	1 ml	\$2.78
	Midazolam injectable	6047	5 mg/ml	10 ml	\$20.01
	Midazolam injectable	114963	1 mg/ml	2 ml	\$1.60
	Midazolam injectable	114965	1 mg/ml	10 ml	\$4.97
	Midazolam injectable	104388	5 mg/ml	2 ml	\$5.91
	Midazolam injectable	104389	5 mg/ml	10 ml	\$18.89
	Midazolam injectable	114692	5 mg/ml	1 ml	\$2.96

There are other controlled substances available if listed on the approved Health Canada Exemption. For any questions, please contact CDMV at:
 1-800-668-2368
 or email: controlled.substances@cdmv.com

For any other questions regarding Health Canada exemptions or ordering, please contact your facility's Clinical Veterinarian.
