

EXPECTED REVIEW TURNAROUND TIME: UPWARDS OF 2 MONTHS

The protocol review process greatly depends on the queue of protocols preceding the researcher's submission and the researcher's promptness in responding to revision and clarification requests. Typically, the ACC protocol review process can take upwards of 2 months, so planning ahead is important. Researchers should take this time to review the [ACUP](#) website materials, complete required [personnel](#) and [animal](#) training, and set up billing [pre-authorization](#).
