

Rodent Oral Gavage (GAVAGE)

Hands-on Laboratory

This lab includes introduction to:

- **Restraint**
 - Discussion and demonstration of restraint procedures for either mice or rats.
- **General Consideration**
 - Discussion and demonstration on how to choose needle and syringe size and how to keep solutions sterile.
- **Oral Gavage Techniques**
 - Discussion and demonstration on how to safely and effectively perform oral gavage on either mice or rats.
- **Potential Complications**
 - Discussion of potential complications caused by oral gavage and ways to respond to those situations.
